

## Pravol Dura-Shield Ultratex Product Line Overview

The Pravol Dura-Shield Ultratex line has a wide range of color and profile options to suit any project.

Planks are available in both solid grooved and un-grooved profiles as well as a hollow grooved configuration that greatly reduces weight and cost.

We're constantly adding both traditional and trendy new colors and textures. Check back at [BuildDirect.com/composite-decking](http://BuildDirect.com/composite-decking) for the latest designer inspired offering.

Dura-Shield Ultratex supports a hidden clip fastening system for easy professional installation.

Facia / Trim and end caps are also available with color and texture to match our most popular selections
